\*\*\*Classes for Young Jumpers may be combined and run as one class when there are less than 4 in a given height category. When classes are combined, each height must jump the height specified for that height category. Course guidelines, class specifications, and scoring must conform to those specified for the lowest height section in the combined class. \*\*\*

\*\*\*If classes restricted to Young Jumpers are combined with an open jumper class held at the same height, courses must conform to the requirements of the Young Jumper height category jumping in the combined class.\*\*\*
